

MARK CYRIL TUBERA

SOFTWARE ENGINEER | API INTEGRATION SPECIALIST

Tubao, La Union 2509 | jobs.markcyriltubera@gmail.com | +639625246119

Results-driven Software Engineer with 3+ years of experience building enterprise-grade APIs and cloud integrations that process millions of daily transactions. Oracle-certified integration specialist with proven expertise in designing scalable REST/SOAP APIs, automating workflows, and optimizing system performance. Strong track record of delivering monitoring solutions that reduced incident response time and enhanced operational visibility across multiple production environments.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, PHP
Framework & Libraries: Django, GeoDjango, Laravel, Leaflet.js
API Technologies: RESTful APIs, SOAP APIs, OAuth 2.0, API Design & Architecture
Databased: MySQL, PostgreSQL, Spatialite, SQL
Integration & Cloud Platforms: Oracle Integration Cloud (OIC), Oracle VBCS, GeoPy
Web & Dev Tools: HTML5, CSS3, Git, Agile/Scrum, CI/CD

PROFESSIONAL EXPERIENCE

Software Engineer | Accenture, Inc. June 7, 2021 - June 13, 2024 | Taguig, Philippines

API Development & Integration:

- Designed and maintained multiple production RESTful and SOAP APIs serving enterprise applications, enabling secure data exchange across distributed systems
- Collaborated with cross-functional teams to architect integration solutions aligned with business objectives and risk management frameworks
- Implemented API security best practices including OAuth 2.0

Automation & Performance:

- Engineered a custom log-analysis tool that replaced roughly 30 minutes of manual log review per run with an automated, filter-based query returning results in seconds, reducing a recurring manual process to a single-person, self-service workflow
- Implemented caching strategies and query optimization on high-traffic API endpoints to improve response times and system efficiency

Documentation & Knowledge Management:

- Authored comprehensive technical documentation including API specifications, integration guides, and runbooks, facilitating knowledge transfer across multiple project teams
- Established documentation standards that improved onboarding efficiency and accelerated new team member productivity

KEY ACHIEVEMENT - PERFORMANCE MONITORING SOLUTION:

- Developed enterprise web application using Oracle Visual Builder Cloud Service (VBCS) and REST APIs to monitor real-time execution metrics for integration workflows
- Deployed across 3 client projects, tracking execution metrics for over 1,000 integration workflows in real time and providing the team with actionable performance insights that significantly reduced troubleshooting time
- Enabled proactive identification of performance bottlenecks, resulting in improved system reliability and customer satisfaction

ELIGIBILITY

Career Service Professional Eligibility

Rating: 88.46 | May 5, 2026

EDUCATION

Bachelor of Science in Computer Engineering

University of the Cordilleras | Graduated: August 2020
